Education

Vellore Institute of Technology **2023 – 2027**
Bachelor of Technology in Computer Science and Engineering (AI & ML) ***CGPA: 8.41/10.0***

Technical Skills

Product Management: Product Analytics, KPI Definition, Root Cause Analysis, User Journey Analysis, Problem Discovery, Feature Evaluation, Product Metrics, Agile, Scrum
Data Analysis: SQL, Python, Exploratory Data Analysis (EDA), Data Cleaning, Data Wrangling, Cohort Analysis, Statistical Analysis, KPI Analysis
Business Intelligence: Power BI, DAX, Power Query (ETL), DirectQuery, Star Schema, Dashboard Development, Data Visualization
Product Analytics Tools: Mixpanel, Microsoft Excel, Power BI
Product & Collaboration Tools: Jira, Figma, Git, GitHub
Databases: PostgreSQL, MySQL, Relational Database Design, Views, Indexes, Constraints, Foreign Keys
SQL: Joins, Window Functions, Common Table Expressions (CTEs), Aggregate Functions, Query Optimization
Product Operations: Requirement Documentation, SOPs, Stakeholder Reporting, Release Tracking, Cross-functional Coordination

Projects

E-Commerce Sales & Logistics Analytics | *PostgreSQL, SQL, Power BI, DAX, DirectQuery* **May 2026**

- Analyzed **100K+ e-commerce orders** using SQL and Power BI to identify customer, seller, product, payment, and logistics performance trends across the end-to-end shopping journey.
- Defined and tracked product KPIs including **Average Order Value (AOV), YoY growth, on-time delivery rate, review sentiment, and seller concentration** to evaluate business and customer experience.
- Performed **root-cause analysis** on delivery delays and seller performance, identifying logistics bottlenecks and concentration risks that could impact customer satisfaction and fulfillment efficiency.
- Built **15+ DAX measures** and an **8-page interactive Power BI dashboard** with drill-through analysis to enable stakeholders to investigate sales, customer, product, logistics, reviews, payments, and seller metrics.
- Designed **4 optimized SQL views** to transform transactional data into analysis-ready datasets, enabling faster and more consistent product and operational reporting.

Food Delivery Business Performance Dashboard | *Power BI, DAX, Power Query, Data Modeling* **April 2026**

- Analyzed a **200K-row food delivery dataset** to understand customer behavior, restaurant performance, delivery efficiency, and revenue drivers across the customer journey.
- Defined **20+ product and business KPIs** including revenue, AOV, cancellation rate, delivery performance, MoM growth, and customer retention.
- Performed **repeat-customer cohort analysis** to evaluate retention and purchase frequency, identifying patterns that could inform customer engagement and growth initiatives.
- Segmented restaurants using pricing and customer ratings to compare performance across business categories and identify opportunities for improving customer experience.
- Built a **5-page interactive Power BI dashboard** with drill-downs, slicers, and cross-filtering for city, restaurant, and customer-level decision making.

Certifications

Claude Code | Anthropic *May 2026*
Claude Code 101 | Anthropic *May 2026*
Oracle Certified Professional — Java SE 7 Programmer | Oracle *May 2025*

Achievements

DSA: Solved **500+ problems** with a **94% acceptance rate** on LeetCode.
Hackathon Finalist: Selected among **Top 30 teams in India** at GrabHack Hackathon.

Leadership / Extracurricular

Gujarati Club, VIT Bhopal **2023 – 2025**
President *VIT Bhopal*

- Directed one of VIT Bhopal's largest cultural communities and successfully organized Garba Night with **5000+ participants**.
- Coordinated **150+ volunteers** across marketing, logistics, sponsorships, ticketing, and crowd management operations.
- Led planning and execution of multiple cultural initiatives, improving student engagement and event participation.
